ABC Analysis

Use this data sheet to record conditions before and after a specific behavior. Teachers can then change antecedents or consequences to shape appropriate student behavior.

Name: **Start Date**:

Setting:

Task:

Instructions:
1. Antecedent   Record what you observed before the behavior occurred
2. Behavior   Record the specific behavior observed. How did the behavior look?
3. Consequence   Record what you observed after the behavior that could serve as a reinforcement.

Date	Antecedent	Behavior	Consequence
