Response Prompt Record

Use this data sheet to record the teacher prompt or cue required to assist a student to make the correct response and learn a new skill. Strategies include use of *time delay* or *hierarchy system* of delivery.

		Scoring Method
Name:	**Start Date**:	6 = Independent
		5 = Gesture
Behavior		4 = Verbal
		3 = Mode
		2 = Partial Physical
Mastery:		1 = Full Physical

Instructions:
1. Record name, date, behavior, and criteria for mastery.
2. Strategies include:
   a. <u>Time delay</u> – allow 5 seconds for the student to respond, then present a controlling prompt.
   b. <u>System of least prompts</u> – allow 5 seconds for response, then present next lowest prompt, repeat.
   c. <u>System of most prompts</u> – present most controlling prompt, then reduce control as student learns.
3. Use data sheet as a Trial Record or Task Analysis. Calculate percent mastery at bottom.
